As at the date of signature of the Contribution Agreement, the Beneficiary Company is a wholly-owned subsidiary of the Contributing Company.

The Beneficiary Company and the Contributing Company do have corporate officers in common.

(C) Objectives and reasons for the operation

The contribution, that is the object of this Contribution Agreement (the **Contribution**), is part of the plan for the financing and reorganisation of the AREVA group, as notified to the public by the Contributing Company on 15 June 2016, which notably includes the creation of a company dedicated to activities connected with the nuclear combustion cycle (Mines, Enrichment/Chemistry and Downstream), disengaged from activities connected with reactors and renewable energy sources, within which strategic investors would invest alongside the State, in compliance with European regulations.

Against this background, the Contributing Company wishes to transfer, on the Completion Date (as defined below), by way of a contribution, to the Beneficiary Company, which agrees thereto, in accordance with the provisions of Article L. 236-22 of the Commercial Code, all the assets and liabilities connected with its activity in relation to the nuclear combustion cycle including the Mining, Enrichment/Chemistry and Downstream activities, including the interests held directly in the subsidiaries listed in **Schedule (C)(i)** hereof (the **Interests**), excluding the assets and liabilities specifically excluded from the Contribution, as described in Clauses 3.3 and 4.3 below (the **Activity**). An organisational chart listing all the subsidiaries and interests directly or indirectly contributed by the Contributing Company to the Beneficiary Company is set out in **Schedule (C) (ii)** of this Contribution Agreement.

Moreover, the Series of Bonds of the Contributing Company, except for Series 1, the maturity date of which is prior to the Completion Date, which notably contributed to financing the Activity, shall also be transferred to the Beneficiary Company by the Contributing Company as part of this Contribution.

In particular, it should be noted that no employee or bank debt shall be transferred by the Contributing Company to the Beneficiary Company as part of this Contribution. In respect of contracts, only the contracts listed in **Schedule (C) (iii)** shall be transferred by the Contributing Company to the Beneficiary Company as of the Completion Date.

In accordance with their option under Article L. 236-22 of the Commercial Code, the Parties expressly subject the Contribution to the legal regime of demergers, provided in Articles L. 236-16 to L. 236-21 of the Commercial Code.

The relevant staff representative bodies and, in particular, the *Comité de Groupe France* (France Group Committee) and the *Comité de Groupe Européen* (European Group Committee) were consulted by the Contributing Company for the purpose of this Contribution and have issued their opinion on the Contribution.

By way of a decision dated 29 August 2016, the Board of the Contributing Company authorised the signature, by the Chief Executive Officer, of the Contribution Agreement.

The Contribution shall be submitted to the extraordinary general meetings of the Contributing Company and the Beneficiary Company which shall be held on 3 November 2016.

(D) Financial statements of the relevant companies to establish the terms of the Contribution

The terms of the Contribution have been established on the basis of (i) the financial statements of the Contributing Company for the half-year ended 30 June 2016 as drawn up by its Board on 28 July 2016, and (ii) the financial statements of the Beneficiary Company for the half-year ended 30 June 2016 as drawn up by its Chairman on 29 August 2016, as set out below in **Schedule (D)** (the date of 30 June 2016 is hereinafter referred to as the **Date of the Accounts**).

In accordance with the provisions Article R. 236-3 of the Commercial Code, the approved annual financial statements of the Contributing Company and the Beneficiary Company for the years ended

in 2013, 2014 and 2015, and the corresponding management reports, the financial statements of the Contributing Company and the Beneficiary Company for the half year ended 30 June 2016 as well as the financial report of the Contributing Company for the half-year ended 30 June 2016 provided in Article L. 451-1-2 of the Monetary and Financial Code, shall be made available to the shareholders of the Contributing Company and the Beneficiary Company, at the registered office, at least thirty days prior to the general meetings of the Contributing Company and the Beneficiary Company convened to decide on the Contribution.

(E) Method of valuation of the Contribution

In application of the provisions of Chapter VII of Regulation No. 2014-03 of the *Autorité des Normes Comptables* (Accounting Standards Authority) relating to the chart of accounts, in so far as the Contribution involves companies under common control, the assets and liabilities contributed by the Contributing Company will be valued at their net book value as of 30 June 2016, it being specified that the assets and liabilities shall be contributed in their condition as at the Completion Date (as defined below).

Ledouble, located at 15 rue d'Astorg, 75008 Paris, represented by Ms Agnès Piniot and Cailliau Dedouit et Associés, located at 19 rue Clément Marot, 75008 Paris, represented by Mr Jean-Jacques Dedouit, have been appointed as contribution appraisers by an ordinance of the Commercial Court of Paris dated 11 July 2016, following a joint application by the Contributing Company and the Beneficiary Company, for the purpose of issuing a report on the procedures of the Contribution as well as a report on the value of the contributions in application of Articles L. 236-10 and L. 225-147 of the Commercial Code.

(F) Effective Date and Completion Date

In accordance with Article L. 236-4 of the Commercial Code, the Contribution shall have retroactive effect as of 1st July 2016 (the **Effective Date**) from an accounting and tax perspective.

Consequently, transactions related to the elements transferred in relation to the Contribution and which are carried out by the Contributing Company from the Effective Date until the date on which the satisfaction of the conditions precedent referred to in Clause 9 (together, the **Conditions Precedent**) has been acknowledged, and therefore the final completion of the Contribution (the **Completion Date**), shall be automatically considered as having been carried out on behalf of the Beneficiary Company which shall exclusively benefit from or suffer the result of the operation of the assets and rights transferred during this period.

(G) Material events which shall occur prior to the Completion Date

(a) United States Reorganisation

The completion of the Contribution will require operations to reclassify interests, assets or activities in the United States (the **United States Reorganisation**). These operations are described in **Schedule (G)** of this Contribution Agreement, and shall, subject to the provisions of the last paragraph of Clause 3.1 of this Contribution Agreement, be carried out by the Completion Date.

(b) The sole shareholder of the Beneficiary Company intends to carry out a share capital reduction for reasons other than losses, on the completion of which the share capital of the Beneficiary company will be reduced from 247,500,000 Euro to 8,250,000 Euro, by the reduction of the nominal value of the shares of the Beneficiary Company from 15 Euro to 0.50 Euro per share. The difference between these amounts, i.e. 14.50 Euro per share and 239,250,000 Euro in total, shall be applied to the issue premium account.

(H) Share capital increase of the Contributing Company and the Beneficiary Company

As indicated in the press release made public by the Contributing Company on 30 August 2016, the financing and reorganisation plan of the AREVA Group referred to in Paragraph (C) above also provides for share capital increases of the Contributing Company and the Beneficiary Company of a total amount of approximately 5 billion Euro, subscribed in the majority by the State alongside strategic investors as the case may be.

These operations are subject to the approval of the European Commission pursuant to European regulations on State subsidies. For this purpose, the French State has formally notified them to the European Commission on 29 April 2016. On 20 July 2016, the European Commission notified the French State of a decision to formally begin the examination procedure. This decision was published as a press release by the European Commission on 19 July 2016. As at the date hereof, this procedure is pending.

5. DETERMINATION OF THE NET ASSETS CONTRIBUTED BY THE CONTRIBUTING COMPANY

From the designations and valuations above, it results that on the basis of the balance sheet of the Contributing Company as at the Date of the Accounts as set out in **Schedule (D)**, the net contributed assets are 83,888,893.30 Euro (the **Net Assets**):

€	Net book value as at 30 June 2016
Amount of assets (a)	7,678,096,170.13
Amount of liabilities (b)	(7,594,207,276.83)
Total net contributed assets (a) - (b)	83,888,893.30

In addition to the liabilities listed above, the Beneficiary Company shall assume the off-balance sheet commitments related to the Activity listed in **Schedule 5** of this Contribution Agreement. The Beneficiary Company shall substitute the Contributing Company in respect of the benefit or the obligations that result or which may result from the aforesaid commitments and each of the companies undertakes to do all that is required for this purpose.

6. REMUNERATION OF THE CONTRIBUTION

6.1 In remuneration of the Net Assets contributed and subject to the satisfaction or release of the Conditions Precedent, the Contributing Company shall be allocated on the Completion Date 89,161,110 fully paid-up new shares of a nominal value of 0.50 Euro each, created through a share capital increase of the Beneficiary Company of 44,580,555 Euro together with a contribution premium of 39,308,338.30 Euro (the **Remuneration**).

The Remuneration is determined on the basis of the actual value of the Net Assets contributed of approximately 1.4 billion Euro (valuing the Beneficiary Company at approximately 2 billion Euros following the Contribution, after taking into account tax consolidation) and the actual value of the Beneficiary Company, i.e. approximately 259 million Euro, for 16,500,000 shares, i.e. approximately 15.72 Euro (rounded off) per share.

These figures calculated as at 30 June 2016 in accordance with the valuation methods set forth in **Schedule (E)**, corresponds to a net total value of the transferred Activity and of the Beneficiary Company of approximately 6.5 billion Euro (excluding cash and financial indebtedness).

The share capital of the Beneficiary Company will thus be modified from 8,250,000 Euro to 52,830,555 Euro, divided into 105,661,110 fully paid-up shares with a nominal value of 0.50 Euro each, all of the same class.

The 89,161,110 new shares shall be subject to all the provisions of the articles of association of the Beneficiary Company, and shall enjoy the same rights as the old shares, subject to the date of enjoyment thereof.

All these new shares shall negotiable as soon as the share capital increase of the Beneficiary Company has been definitively completed in remuneration of the Contribution of the Contributing Company, in accordance with the provisions of Article L. 228-10 of the Commercial Code.

6.2 The difference between:

- (a) on the one hand, the amount of the Net Assets contributed as determined in Clause 5 (i.e. 83,888,893.30 Euro); and
- (b) on the other hand, the nominal amount of the share capital increase of the Beneficiary Company in remuneration of the Contribution (i.e. 44,580,555 Euro);

i.e. 39,308,338.30 Euro, constitutes the contribution premium which shall be recorded in the liabilities of the balance sheet of the Beneficiary Company, and which shall include the rights of all the old and new shareholders in the Beneficiary Company (the **Contribution Premium**).

The general meeting of the Beneficiary Company convened to decide on the Contribution shall be asked to approve the foregoing provisions relating to the determination of the amount of the Contribution Premium and to decide on the allocation thereof. The general meeting of the Beneficiary Company, convened to approve the Contribution, shall also be asked to authorise the competent decision-making body of the Beneficiary Company to proceed with any withholding from the Contribution Premium for the purpose of applying all or part of the charges, costs and duties

resulting from the Contribution, and to reconstitute any reserves that may be required in the liabilities of the Beneficiary Company (such reconstitution may, if necessary, be completed by the use of any other premiums and reservation entries) and to apply the balance to the statutory reserve.

7. TITLE TO AND OWNERSHIP OF THE CONTRIBUTION

- 7.1 The Beneficiary Company shall have title to and possession of the assets and rights contributed by the Contributing Company as from the Completion Date including those which may have been omitted either herein or in the accounts of the Contributing Company.
- 7.2 It is agreed that the transaction shall have retroactive effect, from a tax and accounting point of view, on the Effective Date and that active and passive transactions relating to the Activity carried out by the Contributing Company since that date shall be deemed to have been carried out by the Beneficiary Company.
- 7.3 Consequently, any increase, any new rights or investments relating to the assets contributed since the Effective Date shall belong to the Beneficiary Company, which shall also be liable for all the charges and expenses related to the ownership and enjoyment of the aforesaid assets, or any commitments or debts newly incurred by the Contributing Company.

8. GENERAL TERMS AND CONDITIONS OF THE CONTRIBUTION

- 8.1 As stated above, the Contribution of the Contributing Company to the Beneficiary Company is made on the condition that the Beneficiary Company shall bear any liabilities, commitments and warranties relating to the Activity contributed in accordance with Clause 4, except for the liabilities listed in Clause 4.3.

These liabilities and off-balance sheet commitments received or granted in respect of the contributed Activity (except for those expressly excluded in Clause 4.3) shall be borne, without joint and several liability with the Contributing Company, by the Beneficiary Company, which shall be liable for these liabilities instead of the Contributing Company, without such substitution leading to novation with respect to third parties.

Each of the Parties recognises that in application of the provisions of Articles L. 236-21 and L. 236-14 paragraph 2 *et seq.* of the Commercial Code, non-bondholder creditors of the Contributing Company and the Beneficiary Company, whose receivable is prior to the date of publication of the Contribution Agreement, are entitled to object to the transaction within thirty days of the last publication of the Contribution Agreement.

Each of the Parties also recognises that in application of the provisions of Article L. 236-18 of the Commercial Code, the Contribution shall be submitted to the meetings of Series Bondholders of the Contributing Company, except for Series 1, which matures prior to the Completion Date. If one or more meetings of Series Bondholders do not approve the Contribution, the Parties reserve the right to proceed with the Contribution according to the procedures set out in this Contribution Agreement, or to abandon this operation by mutual agreement.

- 8.2 The Contribution of the Contributing Company to the Beneficiary Company is, moreover, granted and accepted subject to the following terms and conditions:
- (a) The Beneficiary Company will accept the contributed assets composing the Activity in the state in which they may be on the Completion Date, with no cause of action against the Contributing Company on any grounds whatsoever. As from the Completion Date, the Beneficiary Company hereby waives any cause of action or claim which it may have against the Contributing Company in respect of the Contribution (or on other grounds). The

Beneficiary Company shall substitute the Contributing Company in all its rights and obligations in connection with the Activity, subject to the provisions of Clauses 3.3 and 4.3.

- (b) The Beneficiary Company shall make its best efforts to ensure that as of the Completion Date, the Contributing Company is discharged from any warranty which it may have granted in relation to the Activity. Failing this, the Beneficiary Company shall wholly indemnify the Contributing Company for any amounts paid out and costs borne by it in relation to the warranties relating to the Activity from which it has not been discharged.
- (c) As of the Completion Date, the Beneficiary Company shall bear any taxes and other expenses of any kind to which the Activity is or may be subject, all in such manner that the Contributing Company would never be concerned or sought after in this matter.
- (d) As of the Completion Date, the Beneficiary Company shall substitute the Contributing Company in its rights and obligations in respect of the contracts transferred in relation to the Contribution, listed in **Schedule (C)(iii)**.
- (e) As of the Completion Date, and subject to compliance with paragraph (a) above, the Beneficiary Company shall, instead of the Contributing Company, in respect of the contributed liabilities, have all powers to instigate or pursue any judicial or arbitration proceedings, give any consent to any decisions, receive or pay any amounts due following such proceedings and judgments in respect of the Activity, as from the Completion Date.
- (f) As from the Completion Date, the Beneficiary Company shall be liable for the liabilities of the Contributing Company in connection with the Activity and contributed under terms and conditions whereby it is or shall become liable, the payment of any interest, the performance of any terms of loan instruments and existing debt securities relating to the Activity, as the Contributing Company is liable for, and even in respect of any acceleration.

Any expenses relating to securities which may have been granted in respect of the transferred liabilities shall be borne by the Beneficiary Company.

The Beneficiary Company shall also be obliged, under the same terms, to perform the guarantee undertakings relating to the Activity and shall benefit from all counter-guarantees related thereto.

- (g) If creditors lodge an objection to the contemplated Contribution in accordance with the provisions of Articles L. 236-21 and L. 236-14 paragraph 2 *et seq.* of the Commercial Code, the Contributing Company and the Beneficiary Company shall make their best efforts to obtain the release thereof.
- (h) The Beneficiary Company shall provide any reasonable assistance and information required by the Contributing Company concerning the Excluded Assets and Liabilities, and shall inform the Contributing Company of any claim or letter received from third parties in relation to the Excluded Assets and Liabilities.
- (i) If the benefit of a contract cannot be effectively transferred to the Beneficiary Company other than by an agreement, novation or the procurement of the consent of the contracting person or company, the Contributing Company shall make its best efforts to procure such novation or transfer (without the Contributing Company having the obligation to pay any amount whatsoever to one of the contracting parties referred to above). Until the novation or transfer, the Contributing Company shall make every commercial efforts to ensure that the contract continues to be performed for the benefit of the Beneficiary Company.

If the rights and obligations of the Contributing Company pursuant to a contract (including the contracts referred to in **Schedule (C)(iii)** and **Schedule 9.1(a)**) are not effectively transferred on the Completion Date (the **Non-transferable Contract**), due to failure to procure the required consent from the contracting party or company (the **Counterparty**), the Parties agree that in so far as legally possible, such contract may be the object of a right of enjoyment contribution [*apport en jouissance*] to the Beneficiary Company as part of the Contribution, under the following terms:

- (i) the terms and conditions of this contract shall apply *mutatis mutandis* between the Contributing Company and the Beneficiary Company, in such manner that the Beneficiary Company shall have the same rights and obligations as the Contributing Company and that, reciprocally, the Contributing Company shall have the same rights and obligations as the Counterparty in respect of the Non-transferable Contract;
 - (ii) the right of enjoyment over the Non-transferable Contract shall be contributed for the same duration as that of the Non-transferable Contract, for which all modifications, if any, shall be reflected in the right of enjoyment. In particular, the right of enjoyment shall automatically expire or shall be extended in the event of the early termination or extension, as the case may be of the Non-transferable Contract, it being specified that in any event, the right of enjoyment shall be maintained until the extinction of all rights and obligations arising from the Non-transferable Contract;
 - (iii) all the costs and the risks in connection with the Counterparty shall be fully borne by the Beneficiary Company, which agrees not to receive payment from the Contributing Company in the event of default by the Counterparty in the performance of the Non-transferable Contract (insolvency of the Counterparty and/or refusal by the Counterparty to perform the Non-transferable Contract). In particular, the Contributing Company shall not guarantee that the Beneficiary Company shall have due enjoyment of the Non-transferable Contract, except in the event of fraud by the Contributing Company;
 - (iv) the Contributing Company may not transfer the Non-transferable Contract to a third party without the prior and express consent of the Beneficiary Company, and the Beneficiary Company undertakes reciprocally not to transfer the enjoyment of the Non-transferable Contract without the prior and express consent of the Contributing Company;
 - (v) In respect of all decisions concerning the Non-transferable Contract, the Contributing Company shall seek and act on the instructions of the Beneficiary Company; notably, the Contributing Company shall follow the instructions of the Beneficiary Company relating to the conduct of any litigation concerning the performance of a Non-transferable Contract; and
 - (vi) any gains or losses generated by a Non-transferable Contract (including from the outcome of litigation) shall be paid by the Contributing Company to the Beneficiary Company or *vice-versa*, as the case may be.
- (j) Similarly, the Beneficiary Company shall notify any legal persons or entities concerned, of its capacity as the holder of securities, corporate rights and units of any kind included in this Contribution.

- (k) The Beneficiary Company shall comply with the laws, decrees and orders, regulations and customs concerning the operation of the Activity.

9. CONDITIONS PRECEDENT TO THE COMPLETION OF THE CONTRIBUTION

- (e) the prior procurement of the reports of the contribution appraisers on the procedures for the Contribution and the value of the contributions in application of Articles L. 236-10 and L. 225-147 of the Commercial Code.

SCHEDULE (E) – METHODS OF VALUATION USED TO DETERMINE THE REMUNERATION OF THE CONTRIBUTION

- (1) The valuation of the contributed companies includes mainly the following companies:
- (i) AREVA Mines (valuation by the sum of the parts);
 - (ii) AREVA NC (valuation by the sum of the parts); and
 - (iii) AREVA Enrichment Services (now known as AREVA Nuclear Materials) (valuation carried out by the independent expert, Duff & Phelps).

The valuation by the sum of the parts for AREVA Mines is based on:

- The Discounted Cash Flow or DCF method for each mine currently operating or under development (until exhaustion of reserves), for the "Trading" and "Water" (desalting plant) activities, and for the "Central" activity (until exhaustion of reserves). For each mine or activity, the available annual cash flows (including the final value, if applicable) are updated mid-year with the Weighted Average Cost of Capital (WACC) for the specific activity being valued; and
- The method of transaction and market multiples for unexploited mines. This analogical method consists of applying multiples to the uranium resources of AREVA Mines (business/resources value) which have been observed during recent transactions relating to uranium exploration companies or listed uranium exploration companies. A discount in the region of 10% (cost of carrying over 15 years) has been applied to the results.

The valuation by the sum of the parts for AREVA NC is based on:

- The Discounted Cash Flow method for each activity. The cash flows are based on results forecasts over a discretionary period of ten (10) years. For certain activities, flows have been extrapolated. The annual available cash flows (including final value) are updated mid-year with the Weighted Average Cost of Capital (WACC) for the specific activity being valued.

The valuation was prepared on the basis of the information and figures provided by the management of AREVA SA and Accuracy (the financial advisor of the group).

The other companies contributed (notably, AREVA Insurance & Reinsurance, AREVA Beijing Consulting Co, AREVA Japan Co, etc.) were for the most part valued at their net book values.

- (2) The actual value of the other assets and liabilities was deemed to be equal to their net book value except for:
- hedging instruments for which the actual value retained corresponds to their value recorded in the consolidated financial statements of the Contributing Company;
 - the deferred charges, redemption premiums and deferred income for which the value retained is nil.
- (3) The actual value of the Beneficiary Company was considered to be equal to its net book value as at 30 June 2016 in the absence of differences observed between the two values.
