

Incident Notification

Incident Date: April 23, 2023

Title: Treated Effluent Release

Description: A leak was discovered on a section of the Sink Lake discharge line within the bermed area of the McClean Lake site. The line carries treated effluent to Sink Lake.

Resolution: The discharge pump was shut down to stop the flow. It is estimated that 126 m³ was discharged. There were no effects on the environment, health or safety. Provincial and federal regulators were notified and an investigation into the incident was started.
