

## Incident Notification

**Incident Date:** November 26, 2023

**Title:** Contaminated Trailer Shipped Offsite

**Description:** A contractor trailer was released from the McClean Lake site after being scanned and found to be above the criteria for total measurable contamination. The incident was caused by miscommunication between workers and shipping procedures not being correctly followed. The trailer was identified at the Orano controlled transit warehouse in Saskatoon and stopped from further travel.

**Resolution:** The trailer was sent back to McClean Lake for cleaning. The Canadian Nuclear Safety Commission was informed of the incident. No effects on health, safety, security or the environment are expected. An investigation is on-going and a follow up report will be submitted to regulatory agencies.
