

Incident Notification

Incident Date: January 14, 2024

Title: **Dangerous Occurrence - Propane Vaporizer**

Description: Due to extreme cold weather conditions, the propane vaporizers at the JEB Mill have not been working properly. Employees were working on one of the vaporizers, when the door of another unit was forced open. The burner assembly came out of the vaporizer and a flame was briefly observed.

Resolution: The emergency shutoff was activated by employees, turning off all propane to the unit. The vaporizer has been taken out of service until the cause has been found. There are no effects on the environment, health or safety. Federal and provincial regulators were notified. An investigation is on-going and a follow up report will be submitted to regulatory agencies.
