

The expertise

CIME has a multidisciplinary team dedicated to the design, sizing and construction of pilot plants, meeting the specific requirements defined in a set of specifications.

All the projects carried out by the Design Office comply with the regulations in force and the requirements of ISO 9001/2015 certification.

40 years

of experience in
pilot
manufacturing

4

people in the
design office

Only 1

contact person
in charge of the
project

Added value

- Pilot implementation until implementation on our site or the customer's site
- Continuous optimization and improvement of pilots
- Handling of solid and liquid waste, marked or not radiologically marked, from the production to the dismantling of the pilot
- Provision of halls at CIME to accommodate pilots
