

**COMMITMENT:** COMMUNITY WELLBEING

# Kazakhstan: sewing workshops to help people with disabilities

**KATCO has entered into a partnership with the public association "Demeu", aim at helping people with disabilities.**

Located in a rehabilitation center, the association offers sewing workshops to about twenty beneficiaries. The latter are trained and learn to make work clothes, dresses or wedding outfits. In order to support them in this process, KATCO equipped the workshop with several sewing machines.

The income generated by the sale of clothing allows them to support themselves, to be part of an integration process and to change their vision of disability.
