

COMMITMENT: COMMUNITY WELLBEING

Niger: Goal "Zero class in huts"

Somaïr, Cominak and Orano Mining are leading numerous societal actions in Niger.

In Arlit, hut classrooms have been replaced by hard classes that are more resistant to heat, cold, wind and fire. This improves the safety and well-being of students.

Each year, Arlit benefits from Orano's help through the Bilateral Orientation Committee, which brings together, alongside Orano Mining Niger and the subsidiaries COMINAK and SOMAÏR, local elected officials, the administrations concerned as well as civil society and raises the expectations of local stakeholders. The main actions concern health, education, hydraulics and roads.
