

COMMITMENT: COMMUNITY WELLBEING

KATCO provides equipment for local schools

Between 2020 and 2021, KATCO equipped 14 schools in the district with multimedia materials, biology and physics equipment.

The schools that have benefited from this investment of 142 million tenge are located in Tasty, Shu, Kumkent, Taukent, Kyzylkol, Syzgan, Sozak, Navoi, Karakur and Naratau.

In these schools, multimedia classrooms are equipped with interactive whiteboards, high-speed internet connection and innovative software that not only acquires knowledge but also assesses students' learning. There are also computer rooms and laboratories.

All the conditions are in place to help children develop creative abilities and receive a quality education.

Through this action, KATCO reaffirms its support for the younger generations and contributes to the development of education and science.
