

Jean-Luc Palayer

Chief Executive Officer and President
Orano USA

Jean-Luc Palayer is the Chief Executive Officer and President of Orano USA, Orano's operations in the United States providing commercial and federal customers with global expertise in nuclear materials management. Jean-Luc is also serving as the interim President of TN Americas, an Orano USA subsidiary.

He oversees all five of Orano's business units in the United States, including **MCES** for sales of uranium fuel, conversion, and enrichment services; **Orano Decommissioning Services** for dismantling nuclear facilities; **TN Americas** offering the full breadth of used nuclear fuel management (pool to pad, storage, transportation, and ISFSI management); **Orano Med** for the development of medical isotopes for targeted immunotherapy for fighting cancer; and **Orano Federal Services** supporting the development of advanced reactors and offering the full complement of engineering and technology to solve some of the more complex nuclear material processing, conditioning, and packaging for the U.S. Department of Energy.

With more than 20 years in the nuclear industry, Jean-Luc's international leadership experience includes nuclear materials transportation and storage, front-end material production and deliveries, supply chain optimization, and industrial project development in the United States, Europe, and Asia.

He began his career in 1999 with COGEMA (now part of Orano). In 2007, Jean-Luc was named Director of Business Analysis for AREVA Enrichment Services. In 2012, he served as Managing Director of AREVA Solar India and Vice-President of Operations for AREVA Solar Inc with the responsibility to lead construction projects in the United States and India. In 2015, he joined TN Americas (Orano TN) as Vice-President of Global Supply Chain and then as Chief Operating Officer, leading the project management organization, the nuclear manufacturing plants, and the field service business line.

Jean-Luc holds a Master of Engineering degree from École des Mines and an Executive MBA from Georgetown University.

Orano USA is a regional subsidiary of global Orano Group and a leading supplier of advanced reactor services, nuclear fuel materials, used fuel management, decommissioning, decontamination, and radwaste treatment solutions to U.S. commercial and federal customers. Orano USA, through its subsidiary Orano Med in Texas, is also developing cancer treatments using targeted radio-immunotherapy.

Orano, giving nuclear energy its full value.
