

## Orano Federal Services President Dorothy Davidson Elected to the Board of Directors for the U.S. Nuclear Industry Council

*Davidson brings to the USNIC Board her experience working effectively with a diverse set of Government agencies, national laboratories, research universities, and nuclear energy industry partners.*

BETHESDA, Md., January 24, 2024 – Orano Federal Services president Dr. Dorothy Davidson is one of three new Board members recently announced by the U.S. Nuclear Industry Council (USNIC), a leading U.S. business advocate for advanced nuclear energy and the global promotion of the American supply chain.

“I am honored to be a part of this influential organization at a time of great opportunity for launching and expanding innovative nuclear energy in the United States,” said Dr. Dorothy Davidson, Orano FS president. “Orano is serving an integral role supporting used fuel management for several creative reactor designs while also supporting DOE and industry initiatives for advanced fuel supply chains, nuclear materials management, and environmental cleanup. I look forward to applying the full breadth of our portfolio experience to the Board’s discussions and thought leadership.”

USNIC represents approximately 90 organizations engaged in nuclear innovation and supply chain development, including technology developers, manufacturers, construction engineers, key utility movers, and service providers. USNIC’s educational programs, industry insights, and market intelligence brings together bi-partisan Federal and State legislators to create a successful clean energy paradigm that includes nuclear.

### ABOUT ORANO

**Orano USA**, a regional subsidiary of Orano, is a leading supplier of nuclear fuel materials, used fuel management, advanced reactor services, decommissioning, decontamination, and radwaste treatment solutions to U.S. commercial and federal customers. Orano USA, through its subsidiary Orano Med in Texas and partner companies, is also developing cancer treatments using targeted radio-immunotherapy, with its drugs advancing through FDA-authorized clinical trials. Globally, the **Orano Group** provides products and services throughout the entire nuclear fuel cycle, including uranium enrichment and fuel conversion, production, packaging, transportation, storage, and reprocessing. Orano USA, 4747 Bethesda Ave., Suite 1001, Bethesda, Maryland, 20814. <https://www.orano.group/usa>, [@Orano\\_usa](https://twitter.com/Orano_usa)
